

CURRICULUM

Primary

Classes I to V comprise of primary schooling. The teaching pedagogy of the primary years focuses on developing the intellectual capabilities of students to the fullest. It strives to cultivate an aptitude for reasoning and exploration, integration of various subjects is an accepted concept that we abide by.

Secondary

The secondary schooling phase extends from classes VI to IX. One of the most important functions of secondary schooling is enabling students to develop and master their areas of interest and to harness their talents in a constructive fashion. The emphasis is on logical and categorical thinking. Exploiting the infrastructural advantages such as libraries, multimedia halls and laboratories play a huge role in this stage of development.

We ensure access to all that they require to complete projects, conduct experiments and study Concepts. Besides the core subjects of English, Math, Hindi, General Science and Social Science, choice is offered in the III language (Class VIII) and later in the II Language (Class IX). The choices are Sanskrit. They also get lessons in Work experience, Art Education, Performing Arts, Physical and Health Education.

Senior Secondary

The Senior Secondary Years give the student a supportive, yet challenging learning environment. A highly qualified and professional staff trains students in acquiring lifelong skills and prepares them for the internationally recognized CBSE Board Examinations through exciting, application based class room teaching and learning. We are well prepared to cater to the academic and social needs of transient students and encourage all students to constantly challenge themselves. We nurture students who are intellectually curious, creative, respectful, caring, discerning young adults, conscious of their responsibility to the community and their environment. Parents are encouraged to work in partnership with the school and support it in its mission of continuous improvement.

The Senior Secondary Years Curriculum (13-17 years of age) is organized to ensure that all students receive a broad, balanced and clearly articulated learning entitlement which is coherent with being progressive and continuous in nature, building upon the foundations laid during the Primary school.

Students across all Classes/grades receive a range of learning experiences, delivered mainly through traditional subjects, in the following, five broad curriculum areas:

1. Aesthetic & Performing Arts, Physical Education and Sports—including Music, Dance and Physical Education.
2. Ethical & Social Education—including Political Science, History, Economics, Business Studies, Accountancy.
3. Language and Literature—including English & Hindi literature.
4. Mathematics, Science and Computer Studies.
5. Personal, Social and Health Education—is offered across all Classes and through a contextualised programme which is devised to meet the needs of young adolescents.
